Fairfield Heritage Aboriginal people from the Cabrogal-Gandangara tribe have lived in the area for more than 30,000 years. European settlement began in the early 19th century and railways were constructed in the 1850s. Rapid population increase after World War II saw the settlement of many ex-service men and European migrants. Fairfield continues to have a rich history of migrant and refugee settlement over many decades and this contributes to the amazing cultural diversity of the City.
